

What Is MyCreditLift?

MyCreditLift reports positive rental payment information to the credit bureaus. For many renters, rent is often times their largest monthly reoccurring expense, yet less than 2% of rent in the United States is positively reported to the credit bureaus. By reporting this data, you are rewarded for paying your rent on time and in full.

\$8.95
per Month

Why It Works

Your payment history makes up about 35% of your credit score. Paying your bills on time means that you are a responsible person. Regardless of whether or not you have been late on other payments in the past, reporting your rental payment history with MyCreditlift could make a big difference in improving your credit. With a good credit score, you will be rewarded with lower interest rates, better odds of approval, and lower deposits.

What if I don't want my rental payment information reported to the credit bureaus?
